Where that isn’t feasible, I want duplicate appliances. I want it to have ample propane tanks, holding tanks, and potable water tanks. I want the wheels to have electric generators to charge the batteries. I want it to have facilities for audio tapes, CDs, DVDs, videocassettes, both Beta and VHS, and mobile radio and television reception. I want it to have facilities for mobile internet connection.

I wear black jeans instead of blue jeans. I’m presently wearing size 40x30. My preference is Wrangler stretch fit.
